**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-8 and 13-16, drawn to a method for determining an index of organ health in the course of transplantation therapy and kit.

Group II, claim 9, drawn to a method for assessing progress of organ regeneration during transplantation therapy.

Group III, claims 10-11, drawn to a method of predicting a likely outcome of transplantation therapy.

Group IV, claim 12, drawn to a method of assessing transplant procedures.

Group V, claim 17, drawn to a method for treating a patient during transplantation therapy.

Group VI, claims 18-19, drawn to a method for treating a patient during transplantation therapy.

Group VII, claim 20, drawn to an improved method for investigating transplant therapy techniques.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature is the kit of claims 13-16. The method of Groups II-VII do not recite using the kit of claims 13-16 and thus are not linked to Group I.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher L. Chin whose telephone number is (571) 272-0815. The examiner can normally be reached on Monday-Thursday.
